

Lawrence S.

To Dr. Flick from W. O.

1 West Franklin St., Baltimore,
Nov. 25, 1903.

Dear Flick:

Thank you very much. I shall be glad to dine with you on the third.

I shall send the manuscript to Dr. Jelliffe as soon as it is ready, but I doubt if it will be until after the lecture.

There is a nice snarl now about this tuberculosis business. After I had cabled to the Paris people that there would be no Congress of Tuberculosis in this country in 1905 I saw in the paper yesterday morning that Lewis's Congress has been postponed until 1905. I think it would be well to get together a national committee to take charge of the whole business, particularly as Magnin says they are very anxious in Paris to have some representation here. We can talk it over next week.

Sincerely yours,

W^m Osler
